Profile

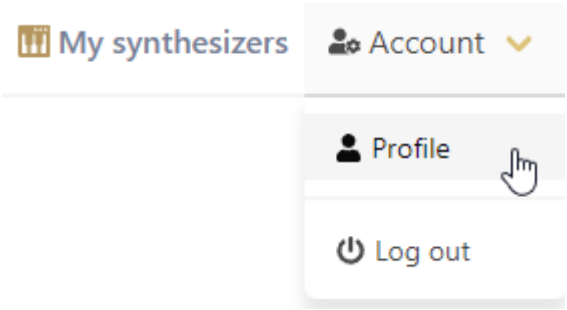

Documentation on available profile options and how to use them.

- Access your profile data
- Change e-mail
- Change password
- Check subscription expiration date

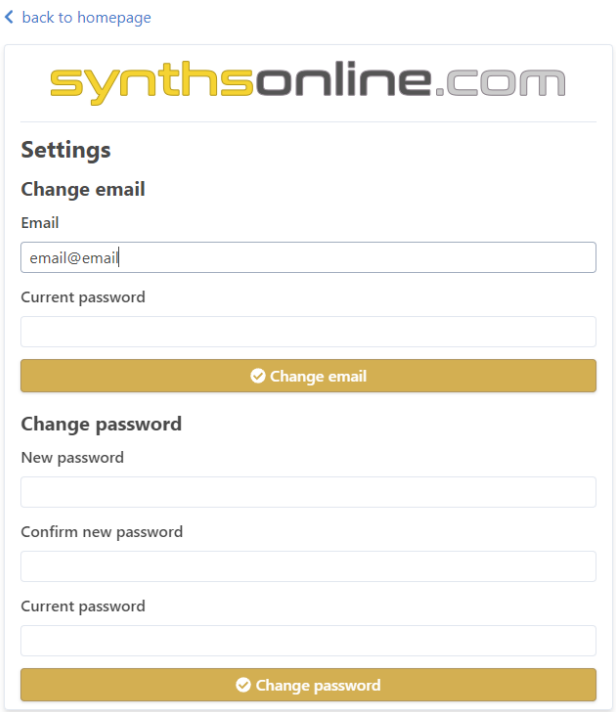

Access your profile data

To access to you profile data you can use this direct link or:

- Use the **Account -> Profile** menu, as show below

This will show your profile page, for example:

Change e-mail

To alter you e-mail go to your profile page, then:

1. Edit the **Email** field with your new e-mail
2. Enter your **current password**
3. Click **Change email** button to apply changes

4. An e-mail is sent to the **inbox of the new e-mail.** Click the validation link given in the e-mail sent.

> If you do not receive an e-mail and wait a few minutes and also check your spam folder

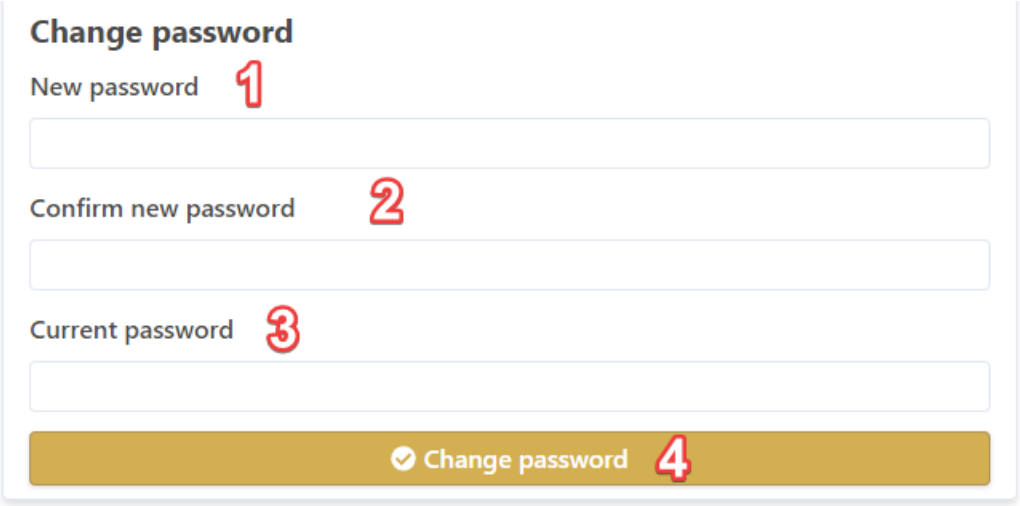

After clicking the link you should be redirected to your profile page with a message that confirms the e-mail was updated:

> Email changed successfully.

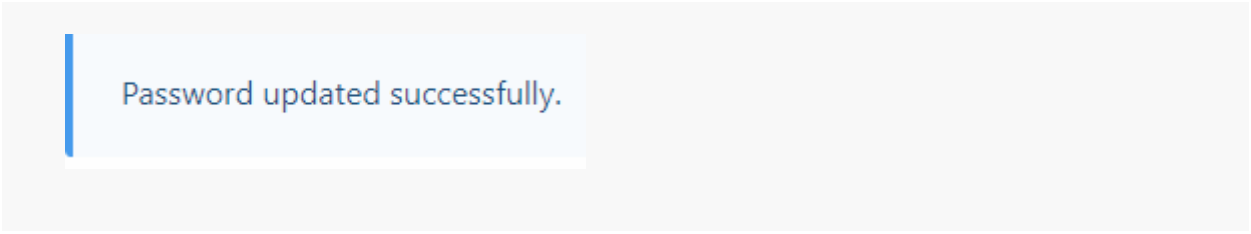

Change password

To alter your password, first go to your profile page, then:

- Type your new password in the **New password** field
- Confirm your password in the **Confirm new password** field
- Enter your current password in the **Current password** field (for security reasons)
- Click **Change password** button to confirm the change

A message confirms your password is updated:

Check subscription expiration date

With a **Premium** account, you can check until when the subscription runs.

- Go to profile page
- If a subscription is active, a message will be displayed at the top of the screen
